

GUIDE FOR THE USE OF TES HEALTH CARE AREA

Rights

To know the services offered by the Health Care Area within the School.

To accept or reject procedures and / or medicines that you consider unnecessary.

To receive respectful and dignified treatment according to your medical condition.

To receive clear and accurate information about your health condition.

To receive medical and nursing care with quality, according to established protocols.

To respect your privacy and the confidentiality of the medical records.

Duties

To provide truthful and timely information about your identity, medical history, symptoms and illness.

To receive clear and accurate information about your health condition.

To obey the internal behavior rules and procedures within the Health Area.

To take care of the setting up and the equipment of the area.

To maintain healthy habits and follow medical instructions.

To take responsibility for your belongings and elements of value.

For the students

You are our priority.
Remember:

Always bring the teacher's permission slip if you leave the class or you are about to go to class after breaks.

To obey the rules of the school's community handbook within the Health Care Area.

Request medical attention at least 30 minutes before the school buses departure.

Take care of your belongings and valuable items, especially electronic devices.

The use of mobile phones is not permitted within the Health Area, unless it is a call for parents or guardians.

All incoming students must be valued, for that reason the high number of patients at the same time may delay the time of attendance.
